

WROTHAM PARISH 1851 CENSUS RETURNS (H.O.107 / 1612)

This name index to the 1851 census returns of Wrotham, Kent, was generated from a slip index originally compiled by the NWKFHS Sevenoaks House Group in 1987-88, from photocopies of the microfilm kindly donated to the Society by Mrs Joyce McQueen.

Data from the slips (name, age and folio only) was typed into computer files by Sabina Doust and John Everist, between Jul 1993 and Jan 1994. Rose Medley numbered each entry on the computer listings so as to re-order the names into their original sequence, thereby simplify checking operations. This exercise also brought to light some slips with missing or incorrect folio numbers.

I have done some fairly extensive work on the computer files, re-ordering the names back into their original sequence, correcting folio numbers and checking a number of doubtful entries. However, the index remains substantially unchecked.
