### Today's Photo

Zoe Martin kindly supplied today's photo which is of the Stone, Dartford Cricket Team, probably in the early 1930s. She found it in a family album.

Zoe's paternal grandfather, Horace George BARTHOLOMEW, born in 1910, is the man top 2nd from left. Do you recognise any of the other sportsmen?

Stone Cricket Club has been in existence since 1888. <http://stonecricketclub.com/>

**Saturday 28 September Speaker at Bromley 10.30am  
Derek Morris will talk about London's Sailortown 1600 - 1800**

Derek discovered many years ago that the great explorer and navigator, Captain James Cook, lived in the East London hamlet of Mile End Old Town from 1765 until his murder in 1779 in Hawaii, and that Derek's family lived nearby.

This discovery has led to twenty years of very deep research into the archives of London and has led to four well-regarded books, dozens of articles and talks, and a willingness to lead walks around London's Sailortown and adjoining areas.

The result has been to greatly widen our knowledge of the merchants and mariners who lived in the area, and their world-wide trading connections, and challenged many well-established stereotypes of these east London parishes in the 18th century.

Doors open 9.45am, meeting starts 10.30am. The venue, Bromley Methodist Church, College Road, Bromley BR1 3NS has a free car park (although this can fill up) and is close to Bromley North Station and is on or near many bus routes.

Visitors are welcome and are invited to make a donation towards the hall and speaker costs. Returning visitors attending more than one meeting are asked to join the Society (£10 per calendar year)

He is a Fellow of the Society of Genealogists and has published several books in the Society's "My Ancestor" series including *My Ancestor was an Agricultural Labourer*, *My Ancestor was a Mormon*, *My Ancestor was in the Royal Navy* and *My Ancestor was a Leather Worker*.

**Wednesday 16 October 10.30am - 12.30 Workshop at the Library**  
**Researching Commonwealth Ancestors led by Pam Goddard**

Were your ancestors early settlers, prisoners sent to Australia, or maybe you are looking for a family member who was sent abroad as a Home Child to one of the commonwealth countries. Perhaps someone in your family emigrated to Australia or New Zealand as a Ten Pound Pom under the Assisted Passage Migration Scheme.

This workshop will cover all these areas and many more.

Using many free databases along with a large number of records on Find My Past and Ancestry, tracing family can often be quite simple; and if you are lucky you may be able to track down living relatives.

**Saturday 19 October Speaker at Bromley 10.30am**  
**Meryl Catty and Maureen Binks will present An Enumerator's Tale**

Census returns are a vital resource for genealogists. But how reliable are they?

For census purposes, enumeration districts of about 200 households were drawn up, which an enumerator was considered capable of visiting in a day.

Enumerators first delivered a Householder's Schedule with instructions as to how it should be completed. The head of the household was required by law to complete the form on census night detailing all those persons who were sleeping in the house that night.

The enumerator returned to collect the Householder's Schedule. However a fully complete,

accurate census return depended on many things:- the ability of the head of the household to read and write; the instructions being understood, particularly regarding night workers or those away from home; the readability of the handwriting; the cooperativeness of the head - just like now there were those who did not regard this as the government's business. Some people wished to exaggerate their job seniority, pretend to be married etc. All this could have the poor enumerators pulling their hair out.

Meryl and Maureen will tell us in a very amusing way of the difficulties encountered by enumerators.

Doors open 9.45am, meeting starts 10.30am. The venue, Bromley Methodist Church, College Road, Bromley BR1 3NS has a free car park (although this can fill up) and is close to Bromley North Station and is on or near many bus routes.

Visitors are welcome and are invited to make a donation towards the hall and speaker costs. Returning visitors attending more than one meeting are asked to join the Society (£10 per calendar year)

### **What are you researching at the moment?**

I am doing two things.

1. I am taking advantage of the government having reduced the price of copy wills and probates to £1.50. I am reviewing my deceased ancestors, checking whether they made a will which was probated, or whether Letters of Administration were made.

If so, I am buying the document as it may add to my knowledge about next of kin. and either confirm my facts or perhaps give me new information about the family circumstances.

A word of warning - the numbers being ordered by genealogists have skyrocketed due to the price reducing from £10 to £1.50, I have heard of one person ordering 150. So the results are not being made available for download in the normal timescale of ten days. <https://www.gov.uk/search-will-probate>

2. I am, for the first time in my family history 'career' a paid up subscriber to Ancestry. That's because, having done a DNA test with Ancestry, I was offered a cheap one-year subscription of £59.99. So I am making the most of it. Although my own tree is 'Private' (meaning it can only be viewed by me and anyone to whom I give specific authority to see it, eg other family members) I am taking advantage of those kind people whose trees are 'Public' (meaning any Ancestry subscriber can see the tree).

Whilst I am well aware that there are many inaccuracies to be found in trees due to coincidences of name or wrongful assumptions, I am seeking to benefit from the files that the tree owners have uploaded to support their tree data.

I am therefore downloading (to my own laptop so the files and photos will still be in my possession even if I am no longer an Ancestry subscriber) all photos, birth certificates etc which other subscribers have attached to their Public trees which connect with someone in my own tree. The Ancestry system makes this very easy. First 'open' the image by clicking on it, then right click with the mouse which brings up options including 'save image as'. Left click on 'save image as' and select a folder on your own PC and enter a file name.

For copyright reasons I could never reproduce that image (eg in emailinfo) be it a photo or certificate, but it is still useful to my own personal research and nice to have.

-----  
*PS I am a volunteer creating this e-newsletter in my 'spare time' but, if you do notice any errors, please tell me, so that they are not carried forward to the next emailinfo.*

-----  
*Editor's note: I often get asked to publicise family history fairs, new books on genealogy and small genealogy businesses. I use my discretion in including ones which are local to our area or which I think may interest readers. It does not mean that I or NWKFHS has any personal knowledge, or makes any recommendation, about the event or business.*

-----  
*If there is anything else I should be aware of, to give you maximum benefit from this emailinfoservice, please let me know. I do receive many suggestions and requests for external events to be included, but there is only room for so much and I am conscious that the longer this email is, the less likely it is to be read. Some external events I publish on our Facebook page instead. But I'd welcome your opinions on the length and content and whether there is anything additional you'd like included.*

*Please mention it to others and encourage them to sign up so that we can keep society members and anyone interested in family history informed of NWKFHS activities.*
